

Mayser USA, Inc.: New partnership with DigiKey

Belleville, MI, January 10, 2025 - Mayser USA, Inc. is excited to announce a strategic partnership with DigiKey Electronics, a global leader in electronic component distribution. This collaboration will significantly expand the availability of Mayser's innovative safety solutions, making them more accessible to customers around the world via the DigiKey marketplace.

Effective immediately, customers can browse and purchase selected Mayser products directly from DigiKey's platform, including:

- SP Safety Edge Kits
- SM8 Safety Mats
- Control Units

"This partnership with DigiKey is a key milestone in our mission to provide industry-leading safety solutions to a broader audience," said Jillian Staggs, Account Manager at Mayser USA. "By leveraging DigiKey's vast distribution network, we're able to reach new customers globally while staying true to our commitment to quality, innovation, and customer satisfaction."

We invite customers to explore Mayser's cutting-edge product offerings on DigiKey's website and discover how our safety solutions can enhance their operations. For more information, visit the DigiKey supplier page: [Explore Mayser products on DigiKey](#).

About Mayser

Mayser GmbH & Co. KG is an internationally active group of companies that develops, produces and sells high-quality products and solutions in the fields of safety technology, foam technology and molded parts. Mayser products are primarily used in the automotive industry, mechanical engineering and public transportation. The portfolio is complemented by stylish headwear, which the company has been manufacturing since its origins in 1800. Mayser employs around 750 people worldwide at its headquarters in Lindenberg, the neighboring site in Ulm as well as in Slovakia and the USA. The annual turnover in 2023 was around 71 million euros.
